

This Week - June 24th

Program: Rotary President Arthur Gunn
will be presenting
the program.

Rotarian of the day: *Jeff Settle*

Last Meeting - June 17th

Program: *Vince Jackson*

Vince Jackson introduced the Milledgeville Rotary Club to an innovative local school and community partnership. He spoke about the Performance Learning Center in Baldwin County. The Learning Center will be a place where students will receive their education and will receive their diploma from Baldwin County High School. The Learning Center is an academic alternative for students in grades 9 through 12 and is designed to help students who are not progressing in the traditional high school setting. The Learning Center is designed to reduce the High School dropout rate. The Learning Center offers opportunity to catch-up academically or move ahead at their own pace. It is the hope that the Center will develop personal life plans for success.

G8 nations reaffirm polio eradication goal, recognize Rotary's work

During the G8 Summit last week in Sea Island, Georgia, USA, world leaders reaffirmed their commitment to taking all of the necessary steps to eradicate polio by the end of 2005 and recognized the important contributions Rotary International has made to the eradication effort.

A statement issued by the White House summarizing planned G8 action through the end of 2005 communicated that the G8 "welcomed and recognized the special contribution made by Rotary International to the eradication of polio."

The group urges governments of the six polio-endemic countries and nine countries in which polio has now spread to take stronger steps to contain and destroy the polio virus so that the initiative's goal can stay on target.

The spearheading partners of the Global Polio Eradication Initiative — the World Health Organization (WHO), Rotary International, the US Centers for Disease Control and Prevention (CDC), and UNICEF — issued a statement applauding the political engagement of G8 leaders and officials to keep up momentum on all actions needed to achieve a polio-free world.

The initiative also emphasized that it looks forward to working closely with the G8 and other donors to identify additional sources of funding to scale up immunization activities in west and central Africa.

The goal of the Polio Eradication Initiative, the world's largest public-private sector partnership, is to interrupt wild poliovirus transmission globally by the end of 2004. The number of polio-endemic countries has been reduced from 125 when the initiative was launched in 1988, to six, and the number of annual cases of polio has dropped from 350,000 in 1988 to 784 last year.
