Last Week - July 24th

Program: **Ed Williams Author & Humorist**

Ed Williams joined us last week and gave the most provocative talk that we have heard in a long time. Discussing everything from sex to dead dogs and back to sex, Ed kept the club on its toes with fond, witty memories from growing up in Juliette, Georgia. He did however, hit the nail on the head, when he said

that there were two types of Rotary clubs- those that had distinguished people, and those that had distinguished-looking people who hide the sinners better.

A novice to writing, Ed found himself at Barnes & Noble seven years ago one day sharing his story, "Catching the Choir Leader with his pants down" to other novelists with aspirations of greatness. From that incident, he has since published two books, Sex, Dead Dogs, and Me and Rough as a Cob.

Ed has a weekly column in The Union-Recorder and does public speaking for a variety of groups, including both types of Rotary clubs.

Rotary's Wheel Emblem

A wheel has been the symbol of Rotary since our earliest days. The first design was made by Chicago Rotarian Montague Bear, an engraver who drew a simple wagon wheel, with a few lines to show dust and motion. The wheel was said to illustrate "Civilization and Movement." Most of the early clubs had some form of wagon wheel on their publications and letterheads. Finally, in 1922, it was decided that all Rotary clubs should adopt a single design as the exclusive emblem of Rotarians. Thus, in 1923, the present gear wheel, with 24 cogs and six spokes was adopted by the "Rotary International Association." A group of engineers advised that the geared wheel was mechanically unsound and would not work without a "keyway" in the center of the gear to attach it to a power shaft. So, in 1923 the keyway was added and the design which we now know was formally adopted as the official Rotary International emblem.
